L&J Mechanical Services Ltd

Electrical Services

Since we launched our services in February 2000, Aztec Facilities Management has grown to become a leading provider of reliable and competitively priced electrical contracting services. The success of our Electrical Services division and continually expanding portfolio of customers comes thanks to our performance in several high-profile contracts. These contracts encompass installations and maintenance for schools, factories, offices, warehousing facilities and many more.

Working for your organisation, our NICEIC (National Inspection Council for Electrical Installation Contracting)-registered Electrical Services division will provide you with full project management solutions designed to meet your unique requirements. Our services focus on saving you money while meeting the latest industry standards and complying with all current legislation, including the *Health & Safety at Work Act* and *Electricity at Work Act 1989*.

Our support doesn't end there, following installation and commissioning, we will provide you with full operating and maintenance manuals and an after-sales service covering periodic testing, inspection, maintenance and reporting of all your electrical installations

OUR SERVICES INCLUDE

- Project management
- Full design service
- Installing electrical systems, emergency power, security systems, lighting systems, and fire alarm systems
- Network infrastructure services
- Control panel design and manufacture
