L&J Mechanical Services

Whatever your sector, from commercial, industrial, retail and domestic to construction, manufacturing, education, private and public, our sister company **L&J Mechanical Services** can provide you with a wide and varied range of mechanical services. These services include designing, fabricating, installing and commissioning extraction systems, process pipework and metal fabrication. Operating from our Swindon-based factory, our expert teams specialise in manufacturing purpose-built metalwork items with polished, plated or painted finishes.

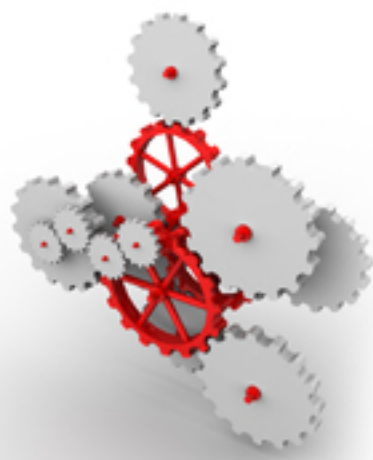

Select our mechanical services and you will also benefit from comprehensive after-sales support. This includes providing you with designs, drawings and operating and maintenance manuals if you need them, plus full supply system care, comprising periodic testing, inspection and maintenance.

OUR SERVICES INCLUDE

- Designing, building and installing bespoke extraction systems – from capturing at source to complete schemes that remove fumes and dust from the working environment
- Designing, fabricating and installing process pipework
- Metal fabrication: sheet metalwork and structural steelwork
- Process pipework: compressed air systems; steam pipework; hot, chilled and cold water systems; natural gas and specialist gases; pipework insulation
- Systems maintenance: air condition, boiler servicing, heating and ventilation systems, plumbing services, refrigeration, statutory inspections, ventilation/duct cleaning, water hygiene/treatment, waste management
